

POWER LIFT®

POWERFUL IDEAS FOR POWERFUL RESULTS

PRO SELECT SHOULDER PRESS

The Power Lift Pro Select Shoulder Press is a member of the selectorized line of equipment. It is unique compared to other shoulder press machines, with a few defining features that make it stand out: a 300 lb. weight stack, adjustable start positions, dual handle positions, an overhead front axis design that provides an optimal path for shoulder movement and a larger handle size of 1 3/4".

KEY FEATURES:

- 300 lb. weight stack
- Dual handle position
- 1 3/4" grip diameter
- Overhead front axis design provides optimal path for shoulder movement
- Adjustable start positions
- 4" x 3" 7 gauge steel tubing
- Heavy weight stacks combined with 10 lb. increments accommodate users of different strength levels
- 5 lb. add on weight standard
- 3" thick pads for user comfort
- Standard weight stack guards
- Instructional placards
- Ratchet lock seat system to accommodate users of all sizes
- 3/16" jacketed to 1/4" Military Grade cables are used on all equipment
- All moveable joints feature ball bearings vs. bushings resulting in smoother motion
